Program to Enhance Elder Refugee Services (PEERS) Wish List

Our Program to Enhance Elder Refugee Services (PEERS) provides New American clients (ages 60+) with access to health, social, and practical support services tailored to their unique needs.

Small but essential items like adaptive equipment and everyday personal care items can make a huge difference to these clients, but often fall beyond what their limited budget can cover.

If you would like to help, please visit this wish list to donate items:
